Online Ordering Usage and Definitions

<https://orders.miblood.org>

When Placing New Orders:

- Create new order for each different delivery Date and Time requirement.
- If ordering more than 50 total RBCs and Frozen products, please split on two orders.
- Select category from Item Category drop down menu on New Order screen. Categories listed are dependent on your organization's configuration.
- Select product (or supply) from Item drop down menu. Items listed are dependent on which Item Category is selected. Items listed are generic products.

ISBT: ISBT code functionality is not being used at this time. If a specific ISBT code is desired, enter it in the order line comment field.

Single Antigen Negative RBC Orders: (C, c, E, e, K, Fya, Fyb, Jka, Jkb, Lea, Leb, M, N, S, s): Enter each antigen negative RBC as a separate line item. Enter the desired negative antigen in the line item comment field using uppercase and lowercase letters, and include the word 'historical' or 'confirmed' to indicate desired testing status, i.e. Fya historical.

Multi-antigen negative or rare/uncommon antigen negative RBCs: Please call your local distribution site to order and indicate desired testing status as historically negative or confirmed negative. Availability assessment will be made (in inventory versus screening needed) at that time.

Modified Products: Orders for modified products other than irradiated and leuko-reduction should be called in.

HLA Matched Platelets: The process for ordering HLA-matched products and apheresis platelets for specific patients has not changed. Continue to call Michigan Blood HLA Laboratory at 616-233-8597 and fax completed Special Order Apheresis Platelets Request form to 616-233-8658. The form is available on Michigan Blood's website, www.miblood.org. Please contact Cindy Raven, HLA Supervisor at 616-233-8594, with questions.

Required Date and Time: Valid entries for Date and Time Required are as follows.

- **Routine Stock Orders:** Enter Date and Time of your next scheduled routine courier run. Submit order at least 2 hours before scheduled delivery time. Allow more time if distance is more than 30 miles.
- **ASAP:** Enter ASAP for non-routine delivery within 6 hours, call local distribution center to alert them to pending order.
- **STAT:** Enter STAT for emergent need, call local distribution center to alert them to pending order.
- **Other orders:** Enter specific date and time that order is required by.
